Sample Sales Kit: One Slice of Data From the Current Forum Dataset

High Potential Organizations

→ Total est. for High Potential orgs: ~27 to 64 units

Organization	Est. Size	Industry	Est. Units
Virtuance	51–200	Real Estate Photography	5–15
Prevu3D	11–50	3D Visualization	3–5
Kudan	11–50	Robotics / SLAM	2–4
2 Percent Realty West Coast	11–50	Real Estate	3–5
Driverfotos	1–10	Photography	2–3
Photostudio Francesco Dell'Isola	1–10	Photography	2–3
NS Photo & Media	1–10	Photography	1–3
360spherical	1–10	Media / 360 Content	2–4
Ucaf Immobiliare	1–10	Real Estate	1–2

ROI for Virtuance

1. Virtuance

Industry: Real Estate Photography

Est. Units: 5–15

Use Case: Enhancing property listings with immersive 360° imagery

Revenue Impact Estimate:

- 360° tours can increase listing engagement by ~40%
- Adds premium offering, potentially \$100–200 extra per shoot
- With 200+ properties annually, added revenue = \$20,000–40,000/year

Camera Cost: ~\$1,000 x 10 = \$10,000

 **ROI:** $(Revenue - Cost) / Cost =$

→ **100%–300% in Year 1**

Number of Developers

From AI: Determining the exact number of software developers at each of these organizations can be challenging due to limited publicly available data. However, based on their industries, sizes, and typical operational structures, we can make informed estimates:

1. **Virtuance**

- **Industry:** Real Estate Photography
- **Estimated Total Employees:** 51–200
- **Estimated Software Developers:** 5–15

- *Rationale:* As a company specializing in real estate photography, Virtuance likely employs a team of software developers to manage their online platforms, image processing technologies, and client interfaces.

Contact Targets

Potential Decision-Maker: Kelsey Ryall, Partner Experience Manager

- **LinkedIn Profile:** [Kelsey Ryall - LinkedIn](#)
